29 Create a detailed outline for a 30-day writing challenge that helps people build a writing habit

30 Write a heartfelt thank-you email to a client after a successful project

31 Generate 10 metaphors that explain complex [topic] in simple terms

32 Write a ghostwritten LinkedIn post in the voice of a busy CEO

33 Create a complete short-form script for a 60-second Reel that goes viral

34 Rewrite this FAQ section to sound more helpful and less corporate

35 Write a detailed book chapter summary that captures the key lessons

36 Generate 15 powerful opening lines for blog posts in [niche]

37 Write a professional bio for a speaker in the third person

38 Create a series of 7 daily journal prompts that help with mindset and productivity

39 Write a persuasive proposal email for a freelance project

40 Generate 10 different tones (professional, witty, urgent, empathetic, etc.) for the same message

41 Write a complete landing page copy for a free lead magnet

42 Create a detailed style guide for a brand's written content

43 Write a compelling origin story for a personal brand

44 Generate 20 content ideas that solve specific pain points for [audience]

45 Write a detailed how-to guide that is step-by-step and beginner-friendly

46 Rewrite this press release to sound more newsworthy and less promotional

47 Write a series of 5 nurture emails that build trust before selling

48 Create a complete content brief for a guest post

49 Write a powerful keynote speech outline with stories and takeaways

50 Generate 12 subject lines that have high open rates for [offer]

51 Write a detailed comparison article between [product A] and [product B]

52 Create a series of 10 micro-copy examples for buttons, forms, and CTAs

53 Write a complete script for a podcast episode introduction and outro

54 Generate 15 storytelling prompts that help people share their expertise

55 Write a professional yet friendly customer success email sequence

56 Create a detailed content repurposing plan for one long-form piece

57 Write a compelling "About Us" page that builds trust and connection

58 Generate 10 different ways to explain the same concept to different audiences

59 Write a detailed book proposal outline for a non-fiction book

60 Create a series of 5 weekly newsletter themes that keep subscribers engaged

61 Write a powerful closing paragraph that leaves the reader inspired to take action

62 Write a 2000-word ultimate guide on [topic] optimized for featured snippets

63 Rewrite this LinkedIn post to sound more human and less corporate: [paste text]

64 Generate 25 TikTok script ideas that educate and entertain in [niche]

65 Create a full chapter-by-chapter outline for a non-fiction book on [topic]

66 Write a high-converting Amazon product description for [product]

67 Turn this transcript into a polished, publish-ready article: [paste transcript]

68 Write a 5-email welcome sequence that builds trust and introduces my offer

69 Generate 30 Pinterest pin title and description ideas for [niche]

70 Rewrite this website homepage copy to increase conversions: [paste copy]

71 Create a detailed villain character profile with psychological depth

72 Write a complete webinar script that sells without being pushy

73 Generate 20 X (Twitter) post ideas that spark debate in [niche]

74 Write a personal branding statement that is memorable and authentic

75 Create a monthly content calendar with themes, formats, and CTAs

76 Rewrite this research paper abstract for a general audience

77 Write a book dedication and acknowledgments section that feels genuine

78 Generate 15 storytelling hooks that work across all platforms

79 Write a client success story that focuses on transformation, not features

80 Create a 14-day content challenge that builds authority fast

81 Write an op-ed style article that takes a clear stance on [topic]

82 Generate 20 curiosity-driven headlines for [topic]

83 Write a detailed review of [tool/service] that feels unbiased yet persuasive

84 Create 5 short parables that teach business or life lessons

85 Rewrite this user manual into friendly, scannable language

86 Write a graceful declining email for a project or collaboration

87 Generate 25 transformation stories for testimonials or case studies

88 Write a long-form sales letter using the PASTOR framework

89 Create a 21-day writing habit challenge with daily prompts

90 Write a sincere apology email that rebuilds trust

91 Generate 12 simple analogies for complex technical concepts

92 Write a ghostwritten Twitter thread in the voice of an industry leader

93 Create a 90-second video script that hooks and delivers value

94 Rewrite this knowledge base article to be more helpful and less formal

95 Write a chapter summary that captures both plot and deeper themes

96 Generate 20 attention-grabbing first sentences for articles

97 Write a speaker bio that positions me as the obvious choice

98 Create 10 reflective journal prompts for personal growth

99 Write a high-converting proposal email for a high-ticket offer

100 Generate the same message in 8 different tones and lengths

101 Write a complete squeeze page copy for a free resource

102 Create a brand voice and tone guide with do□s and don□ts

103 Write an authentic founder origin story that connects emotionally

104 Generate 30 content ideas based on common customer questions

105 Write a step-by-step tutorial that even complete beginners can follow

106 Rewrite this announcement to sound exciting instead of dry

107 Write a 7-email educational sequence that leads into a soft sell

108 Create a detailed guest post pitch email that gets accepted

109 Write a keynote speech opening that captivates in the first 60 seconds

110 Generate 15 high-open-rate subject lines for a product launch

111 Write a side-by-side comparison that clearly shows why one option wins

112 Create 20 micro-copy examples for error messages, empty states, and CTAs

113 Write a podcast episode script with strong narrative arc

114 Generate 15 personal story prompts that build connection

115 Write a warm yet professional onboarding email sequence

116 Create a content recycling plan that turns 1 piece into 15 assets

117 Write an About page that makes visitors feel like they already know me

118 Generate 12 different explanations of the same idea for different audience levels

119 Write a complete non-fiction book proposal that agents would take seriously

120 Create 8 weekly newsletter formats that keep people opening

121 Write a closing section that inspires immediate action without pressure

122 === MARKETING PROMPTS ===

123 Create a complete customer avatar for [product/niche] including demographics, psychographics, pain points, and desires

124 Write a high-converting Facebook ad copy for [offer] using the AIDA framework

125 Generate 20 Instagram Reel ideas that educate and sell without being salesy

126 Create a full email marketing funnel (welcome sequence + sales sequence) for [product]

127 Write 10 different Google Ads headlines and descriptions for [keyword]

128 Generate a complete content marketing strategy for the next 90 days in [niche]

129 Create a viral TikTok script that solves a common problem and promotes [product]

130 Write a detailed competitor analysis of [competitor] and how to differentiate

131 Generate 15 lead magnet ideas that people in [niche] would actually want

132 Create a complete sales page outline using the 4Ps or PAS framework

133 Write a series of 7 nurture emails that warm up cold leads

134 Generate 20 LinkedIn ad copy variations for B2B [offer]

135 Create a full launch plan for a digital product including pre-launch, launch, and post-launch

136 Write a high-converting webinar script outline with engagement points

137 Generate 10 different value proposition statements for [product]

138 Create a complete social media content calendar for 30 days

139 Write a detailed case study that showcases results and social proof

140 Generate 15 objection-handling responses for common sales objections

141 Create a full affiliate marketing outreach email sequence

142 Write a compelling brand story that makes people care about the company

143 Generate 20 YouTube video title ideas that maximize click-through rate

144 Create a complete customer journey map from awareness to advocacy

145 Write a series of 5 retargeting ad scripts for people who visited but didn't buy

146 Generate 10 different pricing page copy variations that reduce hesitation

147 Create a full influencer outreach strategy and message templates

148 Write a detailed SEO content brief for a pillar page on [topic]

149 Generate 15 email subject lines that create urgency without being spammy

150 Create a complete product launch email sequence (7 emails)

151 Write a high-converting quiz funnel outline that segments and sells

152 Generate 20 Facebook post ideas that drive engagement and traffic

153 Create a full content upgrade strategy for existing blog posts

154 Write a detailed marketing plan for a local service business

155 Generate 10 different ways to position the same offer for different audiences

156 Create a complete referral program structure and messaging

157 Write a series of 5 customer testimonial request emails

158 Generate 15 Instagram Story ideas that build trust and sell

159 Create a full paid advertising budget allocation plan for [budget]

160 Write a detailed competitive differentiation strategy

161 Generate 20 headline formulas that consistently convert

162 Create a complete email list building strategy for the next 6 months

163 Write a high-converting VSL (Video Sales Letter) script outline

164 Generate 10 different call-to-action variations for the same offer

165 Create a full community engagement strategy for a Facebook group

166 Write a detailed customer retention plan that reduces churn

167 Generate 15 LinkedIn content ideas that attract ideal clients

168 Create a complete product-led growth strategy outline

169 Write a series of 7 educational emails that position me as the expert

170 Generate 20 Twitter/X thread ideas that grow an audience

171 Create a full omnichannel marketing plan for a product launch

172 Write a detailed analysis of why previous marketing campaigns failed

173 Generate 10 different brand voice guidelines for different channels

174 Create a complete lead scoring system and nurture paths

175 Write a high-converting landing page for a free webinar

176 Generate 15 different ways to create urgency without discounts

177 Create a full content distribution plan across all channels

178 Write a detailed partnership outreach strategy

179 Generate 20 micro-content ideas that can be turned into ads

180 Create a complete customer feedback loop system

181 Write a series of 5 win-back emails for inactive customers

182 Generate 10 different positioning statements for the same product

183 Create a full marketing metrics dashboard outline with KPIs

184 Write a detailed go-to-market strategy for a new product

185 Create a complete customer research interview script

186 Write 15 different Facebook ad angles for the same offer

187 Generate a 30-day organic content plan for Instagram and TikTok

188 Create a full email sequence for a product waitlist

189 Write 12 Google Ads responsive search ad variations

190 Generate a content pillar strategy for [niche]

191 Create a viral challenge or trend idea that promotes [product]

192 Write a SWOT analysis focused only on marketing strengths and weaknesses

193 Generate 20 free lead magnet titles that people will actually download

194 Create a sales page wireframe with section-by-section copy guidance

195 Write an 8-email nurture sequence for webinar registrants

196 Generate 25 LinkedIn sponsored content variations

197 Create a complete product launch timeline with daily tasks

198 Write a webinar registration page that maximizes sign-ups

199 Generate 12 unique value propositions for different customer segments

200 Create a 60-day social media content calendar with themes

201 Write a results-focused case study template with example

202 Generate 20 common objections and word-for-word responses

203 Create a complete affiliate onboarding and training sequence

204 Write a brand story that works for both website and ads

205 Generate 25 YouTube titles using proven psychological triggers

206 Create a detailed customer journey with emotion mapping

207 Write 6 retargeting sequences for different funnel stages

208 Generate 15 pricing page headlines that reduce sticker shock

209 Create an influencer collaboration brief template

210 Write a full SEO content strategy for a new website

211 Generate 20 urgency and scarcity subject lines that still feel ethical

212 Create a 10-email product launch sequence

213 Write a quiz funnel that segments by pain point and desire

214 Generate 30 Facebook organic post ideas that drive DMs

215 Create a content upgrade plan for the top 10 blog posts

216 Write a complete local marketing plan for a service business

217 Generate 12 different market positioning options

218 Create a referral program with incentives and messaging

219 Write 7 different ways to request testimonials

220 Generate 20 Instagram Story sequences that sell softly

221 Create a paid media budget plan with channel allocation

222 Write a competitive teardown focused on messaging and offers

223 Generate 25 proven headline formulas with examples

224 Create a 12-month list-building roadmap

225 Write a complete VSL script with timing notes

226 Generate 15 CTAs that match different stages of awareness

227 Create a community growth and engagement playbook

228 Write a 90-day retention plan with specific tactics

229 Generate 20 LinkedIn posts that attract high-quality leads

230 Create a product-led growth experiment backlog

231 Write a 7-part educational email course outline

232 Generate 25 X thread ideas that establish authority

233 Create an omnichannel launch plan with channel priorities

234 Write a post-mortem analysis of a failed campaign

235 Generate 12 brand voice examples for different platforms

236 Create a lead scoring model with point values

237 Write a high-converting webinar thank-you page

238 Generate 20 ethical urgency tactics that don't feel manipulative

239 Create a multi-channel content distribution calendar

240 Write a partnership pitch deck outline

241 Generate 25 ad creative concepts that can be tested

242 Create a closed-loop customer feedback system

243 Write a 5-email win-back campaign for churned customers

244 Generate 12 different market positions for the same brand

245 Create a marketing KPI dashboard with leading and lagging indicators

246 Write a complete go-to-market plan for a SaaS product

247 === CODING PROMPTS ===

248 Act as a senior software engineer and review this code for bugs, performance issues, and best practices: [paste code]

249 Write a clean, well-commented Python function that does [task]

250 Explain this code line by line as if teaching a junior developer: [paste code]

251 Refactor this messy code into clean, modular, and maintainable code: [paste code]

252 Generate unit tests for this function using [testing framework]

253 Write a complete REST API endpoint in [language/framework] with error handling and validation

254 Create a detailed technical design document for building [feature]

255 Debug this error message and suggest the most likely fixes: [paste error]

256 Write a SQL query that efficiently does [task] with proper indexing suggestions

257 Convert this code from [language A] to [language B] while keeping the same functionality

258 Generate a complete project structure for a [type of app] using best practices

259 Write a detailed code review checklist tailored for [language/framework]

260 Create a step-by-step plan to migrate this legacy system to [new technology]

261 Write a clean React component that does [functionality] with proper state management

262 Generate comprehensive documentation for this API including examples

263 Write a Python script that automates [repetitive task]

264 Create a detailed algorithm explanation for solving [problem] with time and space complexity

265 Refactor this class to follow SOLID principles

266 Write a complete Dockerfile and docker-compose.yml for this application

267 Generate test cases that cover edge cases for this function

268 Write a clean, production-ready authentication system using [method]

269 Create a detailed database schema design for [application]

270 Write a performance optimization plan for this slow query/code

271 Generate a complete CI/CD pipeline configuration for [platform]

272 Write a detailed security audit checklist for this web application

273 Create a clean architecture design for a scalable [type of system]

274 Write a Python decorator that does [task]

275 Generate a complete error handling strategy for this application

276 Write a detailed comparison of different approaches to solve [problem]

277 Create a step-by-step debugging guide for this specific issue

278 Write a clean Node.js Express middleware that does [functionality]

279 Generate a complete testing strategy (unit, integration, e2e) for this project

280 Write a detailed technical debt reduction plan

281 Create a clean GraphQL schema and resolvers for [domain]

282 Write a Python script that scrapes [website] ethically and efficiently

283 Generate a complete logging and monitoring strategy

284 Write a detailed code style guide for a team using [language]

285 Create a clean microservices architecture outline for [system]

286 Write a function that handles rate limiting and retries properly

287 Generate a complete onboarding document for new developers joining this codebase

288 Write a detailed performance benchmarking plan

289 Create a clean event-driven architecture design

290 Write a Python class that implements [design pattern] correctly

291 Generate a complete API versioning strategy

292 Write a detailed incident response playbook for production issues

293 Create a clean domain-driven design model for [domain]

294 Write a script that automates deployment to [platform]

295 Generate a complete code coverage improvement plan

296 Write a detailed comparison of different state management solutions

297 Create a clean plugin/architecture system for extensibility

298 Write a function that safely handles concurrent requests

299 Generate a complete documentation strategy for a growing codebase

300 Write a detailed plan to reduce technical debt in the next 90 days

301 Create a clean caching strategy for this high-traffic application

302 Write a Python script that analyzes code complexity and suggests improvements

303 Generate a complete security hardening checklist

304 Write a detailed architecture decision record (ADR) template and examples

305 Create a clean data pipeline architecture for [use case]

306 Write a function that implements proper input validation and sanitization

307 Generate a complete developer experience improvement plan

308 Act as a staff engineer and design a scalable system for [problem]

309 Write a clean TypeScript interface and implementation for [feature]

310 Explain the time and space complexity of this algorithm and how to improve it

311 Refactor this code to use modern language features and best practices

312 Generate comprehensive Jest/Vitest tests including mocks and edge cases

313 Write a full CRUD API with authentication, validation, and pagination

314 Create a technical design doc with architecture diagrams described in text

315 Analyze this stack trace and provide the root cause plus fix

316 Write an optimized SQL query with EXPLAIN plan analysis

317 Port this JavaScript function to Python while improving readability

318 Generate a monorepo structure for a full-stack application

319 Write a thorough code review focusing on security and performance

320 Create a migration plan from monolith to microservices

321 Write a production-ready React hook with proper cleanup and memoization

322 Generate OpenAPI/Swagger documentation for this endpoint

323 Write a robust file processing script with error recovery

324 Break down this complex algorithm into clear steps with complexity analysis

325 Refactor this code to eliminate code smells and improve readability

326 Write a multi-stage Dockerfile optimized for production

327 Generate property-based tests for this function

328 Design a secure OAuth2 + JWT authentication flow

329 Create a normalized database schema with relationships and indexes

330 Write a performance profiling and optimization plan

331 Generate a GitHub Actions workflow for testing, building, and deploying

332 Create a security checklist for OWASP Top 10

333 Design a clean hexagonal architecture for [domain]

334 Write a reusable decorator/middleware for logging and metrics

335 Create a comprehensive error taxonomy and handling strategy

336 Compare three different approaches to solving [problem] with trade-offs

337 Write a systematic debugging process for intermittent production bugs

338 Create a clean Express/FastAPI middleware stack

339 Design a full testing pyramid strategy with coverage goals

340 Write a technical debt prioritization and payoff plan

341 Design a GraphQL API with proper authorization and dataloaders

342 Write an ethical web scraper with rate limiting and robots.txt respect

343 Create a structured logging and distributed tracing strategy

344 Write a team coding standards document with examples

345 Design a microservices architecture with service boundaries

346 Write a resilient function with circuit breaker and retry logic

347 Create an onboarding guide that gets new engineers productive in one week

348 Design a performance testing and benchmarking suite

349 Create an event-driven system design with message contracts

350 Implement the [design pattern] correctly with real-world example

351 Design a backward-compatible API versioning strategy

352 Write a production incident response runbook

353 Model this domain using DDD tactical patterns

354 Write a zero-downtime deployment script

355 Create a plan to increase test coverage from current level to 80%+

356 Compare Redux, Zustand, and Jotai for this use case

357 Design a plugin system that allows safe third-party extensions

358 Write a thread-safe / concurrency-safe implementation of [feature]

359 Create a living documentation strategy using code and tools

360 Write a 90-day technical debt reduction roadmap

361 Design a multi-layer caching strategy (CDN, Redis, in-memory)

362 Write a static analysis script that finds common issues

363 Create a security hardening guide for the entire stack

364 Write Architecture Decision Records for the last 5 major decisions

365 Design an ETL/data pipeline with monitoring and recovery

366 Write defensive input validation that prevents common attacks

367 Create a developer experience improvement backlog with priorities

368 === BUSINESS PROMPTS ===

369 Create a complete business model canvas for [business idea]

370 Write a detailed one-page business plan for [idea]

371 Generate a full financial projection (3 years) with assumptions for [business]

372 Create a complete go-to-market strategy for a new product

373 Write a detailed competitive analysis of the top 5 players in [industry]

374 Generate a complete pricing strategy with tiered options and justification

375 Create a full customer acquisition strategy for the next 12 months

376 Write a detailed partnership proposal for [potential partner]

377 Generate a complete risk assessment and mitigation plan

378 Create a full organizational structure and hiring plan for a growing company

379 Write a detailed standard operating procedure (SOP) for [process]

380 Generate a complete sales playbook for a B2B sales team

381 Create a full customer success playbook that reduces churn

382 Write a detailed fundraising pitch deck outline with key slides

383 Generate a complete market research report outline for [industry]

384 Create a full product roadmap for the next 18 months

385 Write a detailed SWOT analysis for [company/product]

386 Generate a complete employee onboarding program

387 Create a full performance review system and templates

388 Write a detailed crisis communication plan

389 Generate a complete content and thought leadership strategy for a founder

390 Create a full affiliate and partnership program structure

391 Write a detailed customer segmentation strategy

392 Generate a complete operational efficiency improvement plan

393 Create a full remote team management playbook

394 Write a detailed board meeting agenda and reporting structure

395 Generate a complete intellectual property protection strategy

396 Create a full customer lifetime value optimization plan

397 Write a detailed exit strategy options analysis

398 Generate a complete culture and values definition process

399 Create a full vendor management and negotiation strategy

400 Write a detailed product-market fit validation plan

401 Generate a complete sales compensation plan

402 Create a full data-driven decision making framework

403 Write a detailed expansion strategy into a new market

404 Generate a complete customer feedback and product prioritization system

405 Create a full financial controls and cash flow management plan

406 Write a detailed leadership development program

407 Generate a complete brand positioning and messaging architecture

408 Create a full scenario planning exercise for different market conditions

409 Write a detailed M&A evaluation framework

410 Generate a complete innovation pipeline management system

411 Create a full customer advocacy and referral program

412 Write a detailed operational scaling plan for rapid growth

413 Generate a complete talent retention and engagement strategy

414 Create a full compliance and risk management framework

415 Write a detailed product launch readiness checklist

416 Generate a complete board reporting dashboard structure

417 Create a full strategic planning process for the next 3 years

418 Write a detailed customer journey optimization plan

419 Generate a complete competitive intelligence system

420 Create a full resource allocation and prioritization framework

421 Write a detailed partnership success measurement system

422 Generate a complete founder transition and succession plan

423 Create a full metrics and OKR system for a growing company

424 Write a detailed cost reduction and efficiency audit plan

425 Generate a complete customer education and enablement strategy

426 Create a full market expansion prioritization matrix

427 Write a detailed long-term vision and mission refinement process

428 Create a lean canvas for a new startup idea

429 Write a 10-slide investor pitch deck outline with speaker notes

430 Generate 3-year P&L, cash flow, and balance sheet projections

431 Create a detailed GTM plan with channel prioritization

432 Write a competitive teardown of the top 3 players

433 Design a value-based pricing model with packaging options

434 Create a 12-month customer acquisition plan with CAC targets

435 Write a partnership proposal that clearly shows mutual value

436 Generate a risk register with likelihood, impact, and owners

437 Design an org chart and hiring roadmap for the next 18 months

438 Write an SOP for the most critical customer-facing process

439 Create a complete B2B sales playbook with scripts and stages

440 Write a customer success playbook focused on expansion and retention

441 Design a seed/Series A pitch narrative and slide structure

442 Create a market research plan with primary and secondary methods

443 Write an 18-month product roadmap with themes and milestones

444 Perform a deep SWOT analysis with strategic implications

445 Design a 30-60-90 day onboarding program for new hires

446 Create a performance review cycle with forms and calibration

447 Write a crisis communication playbook for common scenarios

448 Design a founder-led content and thought leadership system

449 Create an affiliate program structure with tiers and rules

450 Segment customers by value, behavior, and needs

451 Write an operational excellence plan that cuts waste

452 Create a remote-first team operating system

453 Design board reporting cadence and key metrics

454 Write an IP protection and patent strategy

455 Create a CLV improvement plan with specific levers

456 Analyze exit options with valuation scenarios

457 Define company culture with behaviors and rituals

458 Create a vendor scorecard and negotiation playbook

459 Design a product-market fit measurement system

460 Write a sales compensation plan that drives the right behaviors

461 Create a decision-making framework using data and judgment

462 Write a geographic or segment expansion plan

463 Design a continuous customer feedback and prioritization loop

464 Create financial controls that prevent cash surprises

465 Design a leadership development curriculum

466 Write a complete brand positioning and messaging house

467 Run a scenario planning workshop for three future states

468 Create an M&A screening and evaluation framework

469 Design an innovation pipeline with stage gates

470 Build a customer advocacy and referral engine

471 Write a scaling plan for operations, team, and systems

472 Create a talent retention strategy with compensation and growth
